

CompCare
Medical Scheme

2027 

ExecuCare

Life is full of surprises.
CompCare has you *covered*.

CompCare Medical Scheme is administered by
Universal Healthcare Administrators (Pty) Ltd.

Administered by

Universal[®]

Why Choose CompCare?

Well-Versed

With 48 years' experience, CompCare offers medical aid cover to all South Africans.

Convenient Virtual Consultations

Benefit from virtual consultations with GPs and online nurse chats from the comfort of your home via uConsult™.

Cover for Moms and Babies

Get access to additional maternity, newborn, and toddler benefits.

Trusted Mental Health Benefits

24/7 access to professional telephonic counselling.

Maximise your Benefits

In addition to your day-to-day benefits, members receive wellness, preventative care and care maximiser benefits worth up to R26 000.

All your Medical Aid Information at your Fingertips

View your membership details, claims, and more on the Universal.one App for CompCare members.

Quality Care

Access to quality private healthcare via the Universal Network of 12 000+ providers nationwide.

International Cover

International emergency medical travel cover via Universal Rewards.

Unlimited Emergency Transportation

By road and air in South Africa.

Instant Cover

Regardless of the day of the month, we offer you instant next day cover at a prorated contribution. Simply join via our easy-to-use online application form.

Comprehensive Medical Cover

All options include assistance to manage chronic conditions such as diabetes and hypertension.

Join CompCare Via the App

Simply download the Universal.one App for CompCare members from the Apple or Google Play store.

Open the app, select **Register** and follow the step-by-step prompts to be automatically logged in.

Apply in Under 10 Minutes

You can join CompCare Medical Scheme right now through a simple, quick and user-friendly process of completing an application on your smartphone.

Membership at Midnight on the Day of Joining

Once approved, you will immediately receive your membership number and digital membership card, and you can start enjoying the peace of mind that comes from being covered by the comprehensive benefits of CompCare.

Universal.one App

Your Membership App in Motion

Easily Navigate Your Medical Aid Membership and Your Health Journey

Quick access to your digital membership card and membership details.

View, download and share your weekly and monthly statements.

Easily submit claims and track your medical scheme expenses.

Tax certificates can easily be viewed, downloaded and shared.

Register your chronic conditions and chronic medicine prescriptions.

Download and share membership certificates.

Request hospital pre-authorisation prior to admission.

uHealthCheck

Your Health in 30 Seconds

A 30-second AI-driven video selfie that provides health and wellness insights, and a wellness score you can track over time, using advanced TOI™ and DeepAffex technology.

uWellness®

Total Well-Being in One App

A comprehensive wellness platform offering tools, tips, assessments, and device integration to support all eight dimensions of wellbeing.

uHealthChat®

Unlimited Nurse Consults

Connect with qualified nurses through a secure online chat for instant, nurse-led care anytime, anywhere.

uConsult™

Virtual Doctor Visits

A secure online platform for doctor consultations, e-prescriptions, test requests, and sick notes, anytime and anywhere.

uSmartRecords

Secure, instant access to your complete health history – including medications, test results, consultations, and hospital records – all in one digital record.

Personal Health Assistant

An AI-powered assistant that keeps you on track with timely reminders for prescription renewals, medication refills, appointments, vaccinations, and follow-ups.

Daily Journal

Track your mood, symptoms and important health moments in one place. Use text or voice-to-text, with AI helping turn symptoms into trackable entries.

Premium Cover for Complete Peace of Mind

ExecuCare is CompCare's most comprehensive level of cover, combining unlimited private hospitalisation and private ward benefits with extensive day-to-day cover and a substantial Above Threshold Benefit for added protection and peace of mind.

Day-to-Day Benefits

Generous day-to-day cover for your out-of-hospital expenses including GP visits, medicines, and dental care, helping manage healthcare costs.

Preventative Care and Wellness

These benefits enhance your day-to-day cover with screenings and checkups for early health issue detection, tailored to support overall well-being.

Care Maximiser

The Care Maximiser provides an additional range of day-to-day benefits covered by scheme risk, without impacting your pocket, ensuring extended cover.

Comprehensive Chronic Cover

Covers the 27 listed Chronic Disease List (CDL) conditions offering peace of mind for long-term health management.

- One additional visit per annum, limited to a maximum of R1 680, unless a PMB. (Including the facility fee and all associated costs).

Unlocking Your Care Maximiser is Easy.

To activate your Care Maximiser benefit, all you need to do is go for your essential health test (see the list of preventative care benefits).

All adult beneficiaries on your benefit option need to go for the following health tests at any of our DSP pharmacies:

Blood pressure

Blood sugar

Cholesterol

BMI and waist circumference

Hospitalisation and Major Benefits

Extensive hospital and major benefit cover ensure financial protection in case of medical emergencies, covering hospital stays, surgeries and other life-saving medical procedures.

For any hospital stay, it is important to obtain pre-authorisation to avoid unnecessary out-of-pocket expenses. Hospital admissions and related treatment are subject to case management, clinical guidelines and managed care protocols. These measures help ensure that members receive appropriate, quality care at negotiated tariffs.

✓ Emergency Transportation

- 100% of the CompCare Rate at Netcare 911.
- Subject to pre-authorisation.
- For non-emergency cases, authorisation must be obtained from the service provider at the time of transportation or within twenty-four (24) hours thereafter; failure to do so will result in a 25% co-payment.

✓ Medical Emergency

- Including the emergency room and hospitalisation.**
(A medical emergency is when someone suddenly becomes seriously ill or injured and needs immediate treatment to prevent serious harm to body functions, damage to an organ or body part, or death).
- 100% of the CompCare Rate.
 - Unlimited for PMBs.
 - Subject to managed care protocols.
 - Authorisation is required for emergency hospital admissions.

✓ Hospitalisation

- 100% of the CompCare Rate.
- **Any Netcare hospital.**
- Subject to pre-authorisation, clinical guidelines and managed care protocols.
- A 35% co-payment applies to the voluntary use of a non-DSP/network hospital/facility, with a minimum of R8 590.

✓ Day Hospital Procedures

- Including theatre, ward, medication, medical appliances and related costs.**
- 100% of the CompCare Rate.
 - **Any Netcare day hospital.**
 - Subject to pre-authorisation, clinical guidelines and managed care protocols.
 - A 35% co-payment applies to the voluntary use of a non-DSP/network hospital/facility, with a minimum of R8 590.

✓ GP and Specialist Treatment While In Hospital

- Specialists are paid at 150% of the CompCare Rate (excluding dental specialists), and GPs are paid at 100% of the CompCare Rate.
- Unlimited.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.

✓ Medication – Only While in Hospital

- Subject to RP and formulary.

✓ Medication on Discharge from Hospital (TTO)

- Limited to seven days per discharge.
- Subject to RP and formularies.

✓ Surgical Prostheses

- 100% of the CompCare Rate, with an overall annual limit of R65 210 PF.
- Limits and sub-limits per category apply.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.

✓ Auxiliary Services Such as Physiotherapy, Dietitian, etc.

- Such as speech therapists, social workers, podiatrists, occupational therapists, homeopaths and naturopaths, dietitians, chiropractors (X-rays excluded), audiologists, physiotherapists and biokineticists.**
- 100% of the CompCare Rate.
 - Limited to R13 590 PF.
 - Combined in- and out-of-hospital limit.
 - Subject to pre-authorisation, clinical guidelines and managed care protocols.
 - A separate pre-authorisation number is required - the claim will not be paid under the hospital pre-authorisation.
 - Referral by the treating medical practitioner is required.
 - A 20% co-payment will apply if not pre-authorised.

✓ Alcoholism, Drug Dependence and Narcotics

- 100% of cost.
- Unlimited for PMBs.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.
- DSP may apply.
- Voluntary admission to a non-DSP will incur a 35% co-payment, with a minimum of R8 590 payable directly to the hospital.

✓ All Specialised Radiology Including MRI and CT scans.

- 100% of the CompCare Rate.
- Unlimited.
- R4 130 co-payment PB per scan, except for PMBs.
- Pre-authorisation and a medical motivation are required for MRI, CT and high-resolution CT scans.
- Subject to managed care protocols and clinical guidelines.
- Excluding non-PMB PET scans.

✓ Basic Radiology and Pathology Radiology: Black-and-white X-rays and ultrasound.

- 100% of the CompCare Rate.
- Unlimited.
- Subject to managed care protocols.

✓ Organ Transplants, Plasmapheresis and Renal Dialysis

- 100% of cost.
- Unlimited for PMBs.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.
- A DSP may apply.

✓ Professional Sports Injuries

- 100% of the CompCare Rate.
- Unlimited.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.
- Voluntary admission to a non-DSP will incur a 35% co-payment, with a minimum of R8 590 payable directly to the hospital.

✓ Oncology

Including chemotherapy and radiotherapy.

- 100% of the CompCare Rate.
- Unlimited.
- The oncology DSP applies.
- Subject to pre-authorisation, clinical guidelines, managed care protocols and oncology formularies.

✓ Specialised Medication

- 100% of the CompCare Rate.
- Unlimited for PMBs.
- Non-PMBs limited to R391 250 PF.
- A 25% co-payment applies to non-PMBs.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.

✓ Surgical and Medical Appliances

E.g. wheelchairs, crutches, glucometers, artificial eyes and external fixators.

- 100% of the CompCare Rate.
- Paid from the AFB.
- Sub-limits apply.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.

✓ Refractive Eye Surgery

- 100% of the CompCare Rate.
- Annual limit of R10 210 per eye.
- Limit includes all services rendered: Hospitalisation and all related costs.
- Subject to pre-authorisation, clinical guidelines and protocols.

Alternatives to Hospitalisation

✓ Surgical Procedures

Out-of-hospital.

- 100% of the CompCare Rate.
- Unlimited.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.

✓ Step-Down Nursing Facilities,

Hospice, rehabilitation and home-based care in lieu of hospitalisation.

- 100% of the CompCare Rate.
- Unlimited.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.

Important to Remember

Always use a network hospital (where applicable) to avoid co-payments. In an emergency, go to the closest appropriate network hospital. If none are nearby, you may go to the nearest appropriate facility. For any procedures requiring a specialist, it's crucial to ensure that the specialist operates or attends to you at a network hospital.

A 35% co-payment will apply to the voluntary use of a non-DSP/network hospital/facility, with a minimum of R8 590.

✓ Oxygen Home Ventilation

- 100% of the CompCare Rate.
- Paid from the AFB for non-PMBs.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.

✓ Home Nursing Visits

Nursing services by registered nurses or nursing assistants for the acute phase after hospitalisation or in lieu of hospitalisation (not for custodial or chronic care).

- 100% of the CompCare Rate.
- Limited to 60 days PF, unless otherwise authorised.
- Paid from the AFB.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.

✓ Wound Care In Lieu of Hospitalisation

- 100% of the CompCare Rate.
- Unlimited.
- Subject to pre-authorisation, clinical guidelines and managed care protocols.

Going to Hospital?

Here's What You Need to Know

Hospital treatment can feel overwhelming, so we've made the important information as simple as possible.

A few checks before you go can help you avoid unexpected co-payments and make sure your treatment is covered correctly.

Before You Go to Hospital

1 Get pre-authorisation

All hospital admissions must be **pre-authorised** and are subject to CompCare's clinical guidelines and managed care protocols. For a planned admission, contact us **at least 48 hours before you are admitted**.

2 Choose the right hospital

Where your benefit option has a hospital network, always use a **network hospital** to avoid unnecessary co-payments. If your treatment requires a specialist, also check that your specialist **works at or admits patients to a hospital within your network**.

3 What happens in an emergency?

In an emergency, go to the **closest appropriate network hospital**. If there isn't one nearby, go to the **nearest appropriate medical facility**. Your health comes first.

Choosing a Non-Network Hospital Could Cost You

If you **choose to be admitted to a non-DSP hospital** where a DSP applies, you will need to pay **35% of the hospital account, with a minimum co-payment of R8 590**.

This co-payment does not apply to **life-threatening emergencies or possible loss of limbs**, as defined as PMB medical emergencies in section 29(1)(o) of the Act.

Planned, Urgent or Emergency Admission?

1 Planned or elective admission

If you know in advance that you are going to hospital or a day hospital, get pre-authorisation **at least 48 hours before admission**. If authorisation is obtained late – less than 48 hours before admission – a **R3 140 late-authorisation co-payment** will apply.

2 Urgent admission

If you need to be admitted urgently, obtain authorisation **before you are admitted**, wherever possible.

3 Emergency admission

In a medical emergency, get the treatment you need first. CompCare must then be notified **within one working day after admission**. If we are not notified in time, a **R3 140 co-payment per admission** will apply.

Don't Forget About Other Healthcare Professionals

During a hospital stay, you may need services from other healthcare professionals.

For in-hospital auxiliary services:

- Your treating medical practitioner must refer you.
- A **separate pre-authorisation is required for each provider**.
- If pre-authorisation is not obtained, a **20% co-payment** will apply.

Day Hospitals

Sometimes you don't need an overnight hospital stay

Many procedures can safely be performed in a **day hospital**, allowing you to have your procedure and return home on the same day.

And there's another advantage:

For the selected procedures listed below, CompCare will waive any possible procedure-specific facility/hospital co-payment when you use an appropriate day hospital.

If you choose to have the same procedure performed in a **medical hospital**, a procedure-specific co-payment may apply.

Going to Hospital? Here's What You Need to Know (continued)

When is a Medical Hospital More Appropriate?

You may need to use an acute hospital if:

- You are considered high risk.
- You need additional treatment beyond the listed day-hospital procedure.
- Your condition requires admission to an acute hospital.
- There are no day hospitals within a 50 km radius.
- Your treating healthcare professional determines that an acute hospital is clinically necessary.

Where a hospital network applies to your option, the day hospital should still fall within the applicable **Netcare or Mediclinic hospital network**.

Before booking your procedure, check your network and apply for pre-authorisation.

Procedures That May be Performed in a Day Hospital:

Category	Procedures
Biopsies	Skin and soft-tissue biopsies.
Skin and minor soft-tissue procedures	Removal of skin lesions, debridement, simple wound repair, foreign body removal, incision and drainage of abscesses or cysts, lipoma excision and superficial lymph node removal.
ENT	Tonsillectomy, adenoidectomy, grommets, myringotomy, myringoplasty, tympanoplasty, nasal endoscopy, laryngoscopy, cautery for nose bleeds, sinus lavage, and nasal septum and turbinate repair.
Eye procedures	Cataract surgery, glaucoma treatment, corneal procedures, pterygium/conjunctival surgery, tear-duct procedures, eyelid surgery, strabismus repair, retinal surgery and foreign body removal.
Gastrointestinal scopes	Gastroscopy, colonoscopy, sigmoidoscopy, proctoscopy, anoscopy and oesophagoscopy.
Anorectal procedures	Procedures for haemorrhoids, fissures and fistulas, anal dilatation and related minor anorectal procedures.
Gynaecology	D&C, hysteroscopy, endometrial ablation, colposcopy with LLETZ, diagnostic laparoscopy, cervical cerclage, tubal ligation/sterilisation, suction curettage, uterine evacuation and simple vulval or Bartholin's gland procedures.
General surgery	Umbilical hernia repair, inguinal hernia repair, haemorrhoidectomy, drainage of abscesses or haematomas, selected laparoscopic appendicectomy and selected minor abdominal procedures.
Orthopaedic, hand and foot procedures	Arthroscopy, arthrotomy, minor joint arthroplasty, tendon or ligament repair, trigger finger release, ganglionectomy, carpal tunnel/peripheral nerve neuroplasty, bunion or toe deformity repair, Achilles tendon release, simple fracture or dislocation treatment and removal of pins, plates or wires, subject to case review.
Urology	Cystoscopy, ureteral dilatation, pyelogram, ureteral stone removal, renal calculus removal with stent insertion, circumcision, vasectomy, vasostomy, hydrocoele, varicocele, scrotal/testicular exploration and related male genital procedures.
Dental and maxillofacial	Dental extractions, wisdom tooth removal, apicectomy, oral biopsies, cystectomy, frenectomy, implants, bone grafts and sinus augmentation, depending on benefit rules and clinical suitability.
Pain management	Facet blocks, facet joint infiltrations, radiofrequency ablation/rhizotomy, epidural steroid injections, nerve root blocks and occipital nerve blocks, where clinically appropriate.

Three Things to Remember

Check your hospital network.

Apply for pre-authorisation.

Know your co-payment before you go.

Co-Payments

Overall co-payment for elective surgeries

N/A

Voluntary use of non-DSP/network hospital/facility Hospital/facility account

A 35% co-payment will apply to the voluntary use of a non-DSP/network hospital/facility, with a minimum of R8 590.

MRI and CT-scans

In and out of hospital

R4 130 per scan

Specialised medication

No co-payment

Diagnostic scopes including:

- Gastroscopy
- Colonoscopy
- Cystoscopy
- Proctoscopy
- Flexible sigmoidoscopy

No co-payment

Functional nasal surgery including:

- Endoscopic Sinus Surgery
- Septoplasty

No co-payment

Arthroscopy

No co-payment

Minor gynaecological laparoscopic procedures

e.g. Hysteroscopy, endometrial ablation and diagnostic laparoscopy.

No co-payment

Dental

No co-payment

Joint replacements

Arthroplasty

No co-payment

Conservative back and neck treatment - spinal cord injections

No co-payment

Laminectomy and spinal fusion

No co-payment

Nissen fundoplication

Reflux surgery

No co-payment

Hysterectomy (Except for cancer and prophylactic hysterectomy)

No co-payment

Laparoscopic hemicolectomy and inguinal hernia repair

No co-payment

Adenoidectomy, myringotomy - grommets, tonsillectomy

- Hospital
- Day clinic

No co-payment

No co-payment

Other Co-Payments In Day-to-Day Benefits

Acute medication

A 25% co-payment on medicines where no generic is available.

Chronic medication

Including CDLs

DSP pharmacies apply. A 25% co-payment applies to non-formulary medicine and the use of a non-DSP.

Specialist visits out-of-hospital

A 35% co-payment will apply to specialist services, including related costs, e.g. pathology and radiology, without a GP referral.

Prescribed Minimum Benefits (PMBs) are covered in full, without any co-payment required. Co-payments are applied PB, per event.

Chronic Conditions Covered

- | | | | |
|---|--|---------------------------------------|--|
| ✓ Addison's disease | ✓ Crohn's disease | ✓ Hypoparathyroidism | ✓ Pulmonary interstitial fibrosis |
| ✓ Allergic rhinitis | ✓ Cushing's syndrome | ✓ Hypothyroidism | ✓ Rheumatoid arthritis |
| ✓ Angina | ✓ Cystic fibrosis | ✓ Ischaemic heart disease | ✓ Schizophrenia |
| ✓ Ankylosing spondylitis | ✓ Deep vein thrombosis | ✓ Migraine | ✓ Scleroderma (systemic sclerosis) |
| ✓ Anorexia nervosa | ✓ Depression medication - R180 pbpm | ✓ Motor neuron disease | ✓ Stroke |
| ✓ Asthma | ✓ Diabetes insipidus | ✓ Multiple sclerosis | ✓ Systemic lupus erythematosus |
| ✓ Attention deficit disorder | ✓ Diabetes mellitus type 1 & 2 | ✓ Muscular dystrophy | ✓ Thrombocytopenic purpura |
| ✓ Barrett's oesophagitis | ✓ Emphysema | ✓ Myasthenia gravis | ✓ Ulcerative colitis |
| ✓ Bechet's disease | ✓ Epilepsy | ✓ Narcolepsy | ✓ Unipolar mood disorder/ major depression |
| ✓ Benign prostatic hyperplasia | ✓ Generalised anxiety disorder | ✓ Obsessive compulsive disorder | ✓ Valvular heart disease |
| ✓ Bipolar mood disorder | ✓ Glaucoma | ✓ Osteoarthritis | ✓ Vertigo |
| ✓ Bronchiectasis | ✓ Gastro-oesophageal reflux disease | ✓ Osteoporosis | ✓ Zollinger-Ellison syndrome |
| ✓ Bulimia nervosa | ✓ Gout/hyperuricaemia | ✓ Paget's Disease of the Bone | |
| ✓ Cardiac arrhythmias | ✓ Haemophilia | ✓ Panic disorder | |
| ✓ Cardiomyopathy | ✓ HIV/AIDS | ✓ Paraplegia/quadruplegia | |
| ✓ Chronic renal failure | ✓ Hormone replacement therapy | ✓ Parkinson's disease | |
| ✓ Congestive cardiac failure | ✓ Huntington's disease | ✓ Pemphigus | |
| ✓ Conn's syndrome | ✓ Hypercholesterolaemia/ Hyperlipidaemia | ✓ Peripheral arteriosclerotic disease | |
| ✓ Chronic obstructive pulmonary disease | ✓ Hypertension | ✓ Polyarthritis nodosa | |
| ✓ Chronic bronchitis | | ✓ Post-traumatic stress syndrome | |
| ✓ Connective tissue disorders (mixed) | | ✓ Psoriasis/psoriatic arthritis | |
| ✓ Coronary artery disease | | | |

List of Exclusions

Please Note that Exclusions are Subject to PMB.

Procedures

Bariatric surgery / treatment relating to obesity
Breast reduction / Gynaecomastia surgery
Elective Caesarean sections for non-medical reasons
Cochlear implants, auditory brain implants (Bone-anchored Hearing Aids) - **Limits apply**
Cosmetic surgery - blepharoplasty; septoplasty, nasal tip reconstruction and otoplasty, as well as any cosmetic preparations
Excimer Laser / Refractive surgery - **Limits apply**
Gender reassignment surgery, medicines and treatment
Infertility - AI; IVF; GIFT; ZIFT and ICSI
Investigations and diagnostic work up only in hospital
Joint replacement surgery and related orthopaedic prosthesis (including hip, knee, shoulder, elbows, ankle, wrist and finger prosthesis) - **Limits apply**
Removal of port-wine stains, scars and tattoos
Reversal of Vasectomy or tubal ligation
Robotic assisted surgery
Spinal surgery and related orthopaedic prosthesis (Instrumentation, implantable devices and spinal cages) - **Limits apply**
Sleep therapy
Treatment of keloids except for burns & functional impairment

Dental

Bleaching of teeth
Conscious sedation and general anaesthetics for dental procedures - 7yrs and older
Lingual orthodontics
Orthodontic treatment over age of 18yrs
Osseo-integrated implants, all implant-related procedures and orthognathic surgery - **Limits apply**
Resin bonding of Metal fillings

Medicines

Medication not registered by SAPHRA
Medication used in clinical trials and / or treatment resulting from clinical trials
Anabolic steroids and immunostimulants
Vitamins and minerals

Prosthesis

Implantable ventricular assist devices (e.g. LVAD) and total artificial hearts
Internal fixators for fractures - Limits apply
APS/TENS machines
Chair seats / backrests and cushions (Excluding wheelchairs backrests and cushions)
Hospital beds - purchase / rental
Health shoes
Incontinence Products (Linen savers; disposable nappies, waterproof sheets)
Mattresses
Motorised Scooters
Shower and bath rails
Sunglasses (prescription and non-prescription)
Braces including rigid back braces, and callipers - **Limits apply**
Wigs - **Limits apply**
CPAP machines - **Limits apply**
Apnoea monitors for infants <1 year - **Limits apply**

Other

Difference in cost between a cornea from outside SA and a locally acquired cornea
Physiotherapy services - wisdom teeth; caesareans
Genetic and metabolic testing
Aphrodisiacs
Smoking cessation agents
Contact lens preparations
Cosmetic preparations

Sub-Limits

for Surgical Prosthesis, Electronic and Nuclear Devices and Appliances

	Description	Frequency	Sub-limit
Overall internal prosthesis limit per family			R65 210
Coronary artery stents (Subject to the overall internal prosthesis limit)	Stents	Annual	Subject to the overall internal prosthesis limit and a limit of R15 220 per stent.
	Medicated stents		
Other stents (Subject to the overall internal prosthesis limit)	Abdominal aortic aneurism stents	Annual	Subject to the overall internal prosthesis limit.
	Carotid stents		R37 390
	Renal stents		R7 060
	Aneurysm coils		R49 890
Heart valves etc. (Subject to the overall internal prosthesis limit)	Heart valves (Mitral etc)	Annual	R34 010
Orthopaedic prosthesis (Subject to the overall internal prosthesis limit)	Hip prosthesis	Annual	R45 320
	Knee prosthesis		R45 320
	Shoulder prosthesis		R45 320
	Elbow prosthesis		R44 020
	Ankle prosthesis		R44 020
	Wrist prosthesis		R44 020
	Finger prosthesis		R27 170
	Spinal instrumentation – Sub-limit per level subject to the overall internal prosthesis limit and limited to 1 procedure per beneficiary per year.		R34 010 for first level and R63 580 for two and more levels
	Spinal cages		R38 040
	Spinal implantable devices		Subject to the overall internal prosthesis limit.
	Internal fixators for fractures		R35 100
Artificial limbs (Subject to the overall internal prosthesis limit)	Through knee	Annual	Subject to the overall internal prosthesis limit.
	Below knee		
	Above knee		
	Partial foot		
	Partial hand		
	Below elbow		
	Above elbow		
Other prosthesis (Subject to the overall internal prosthesis limit)	Intraocular lenses	Annual	R5 650
	Bladder sling		R10 760
	Hernia mesh		R11 090
	Vascular grafts		R35 640

	Description	Frequency	Sub-limit
Electronic and nuclear devices (Subject to PMBs)	Internal cardiac defibrillator	Annual	Subject to the overall internal prosthesis limit.
	Single chamber pacemaker	Annual	Subject to the overall internal prosthesis limit.
	Dual chamber pacemaker	Annual	Subject to the overall internal prosthesis limit.
	Internal nerve stimulators	Annual	R148 890
	Cochlear implants and Bone Anchored Hearing Aids (BAHA)	Annual	R262 020
Appliances (Subject to day-to-day benefits)	Insulin pumps	Every 5 years	R30 330
	Overall limit	Annual	R44 020
	Hearing aids (13 years and older)	3 year interval	R29 780
	Hearing aids (0 - 12 years)	3 year interval	R6 790
	Artificial eyes	5 year interval	R28 530
	BP monitor	3 year interval	R870
	Glucometer	3 year interval	R870
	Humidifier	3 year interval	R370
	Nebuliser	3 year interval	R710
	Breast pump	Per pregnancy	R3 450
	Moonboot	Annual	R2 940
	Elbow crutches	Annual	R880
	CPAP machines	3 year interval	R13 370
	Apnoea monitors for infants < 1yr	Once per beneficiary per lifetime	R13 040
	Braces and callipers	Annual	R970
	Rigid back brace	Annual	R7 060
	Sling clavicle brace	Annual	R710
	Wigs	Annual	R2 610
	Bras for breast prosthesis after mastectomies	2 per annum	R3 690
	Breast prosthesis	Annual	R4 400
	Commodes	3 year interval	R2 720
	Swivel Bath chairs	3 year interval	R2 260
	Wheelchairs	3 year interval	R5 670
	Walking frames	3 year interval	R1 360
	Rehabilitative foot orthotics	Annual	R4 400
Wearable devices	Wearable devices claimable only with a valid NAPPI code	Annual	Excluded
Stockings (Subject to day-to-day benefits)	Stockings: Elastic, Full length and anti-embolic stockings, including compression socks	Annual	R2 620

Your CompCare Cover for Medical Emergencies

Ensuring you receive the care you deserve in critical moments.

At CompCare, we understand that medical emergencies can happen when you least expect them. That's why we're committed to providing the support and cover you need during urgent, life-threatening situations. Whether it's a heart attack, serious accident, or life-threatening allergic reaction, we take away the financial stress so you can focus on what matters most - getting the right care, fast.

What is Regarded as a Medical Emergency?

It is the sudden and unexpected onset of a health condition that demands immediate medical or surgical intervention. Without prompt treatment, it could lead to significant impairment of bodily functions, serious dysfunction of an organ or body part, or pose a severe risk to the person's life.

Examples of Medical Emergencies Include:

- ❗ Heart attacks
- ❗ Strokes
- ❗ Severe burns
- ❗ Poisoning
- ❗ Serious motor vehicle accident with life-threatening injuries
- ❗ Life-threatening allergic reactions (anaphylaxis)

What Does This Mean for You?

The peace of mind that you are fully covered for medical emergencies. This means that if you or your loved ones experience a medical emergency, your treatment and care will be prioritised - no matter what your benefit option is.

CompCare Covers the Following:

- Emergency room
- Hospital account
- Radiology
- Pathology
- Specialists
- Blood transfusions
- Oxygen
- Any other related costs

The facility or admin fee is not covered.

Authorisations

Hospitalisation pre-authorisation is required, but with our 24-hour pre-authorisation call centre, you can easily secure approval at any time, day or night.

Remember:

Download your membership card from the Universal.one App for CompCare members, so you always have it on hand in an emergency.

For minor injuries or other ailments, costs will be covered from your available day-to-day benefits.

Ambulance Services:

Call 082 911 for Netcare 911

They will dispatch an ambulance to you, even from another ambulance service should that be required. CompCare will cover any necessary emergency air lifts.

How do I Apply for Membership?

Individual members can visit the CompCare website to apply online in less than 10 minutes, speak to a broker or request a callback on the CompCare website. If you are joining through your employer, please follow your employer's application process.

When is My Monthly Contribution Due?

Your contribution must be paid by the **third day of each month**, and it is **paid upfront for the month ahead**.

How do I Add a Dependant?

- Contact CompCare or download the form from the CompCare website and email it to **membership@universal.co.za**.
- You may need a birth certificate, marriage certificate or affidavit.
- Newborn babies must be added within 30 days of birth.
- Students aged 18 to 21 must provide proof of studies.

Where can I Find my Membership Card?

Your digital membership card is available on the Universal.one App and can be used at healthcare providers.

How do I Update my Personal Details?

Complete a Member Update Information form, available on the CompCare website, or call **0861 222 777**. Remember to report changes within 30 days.

How do I Check my Available Benefits and Claims?

Log in to the Universal.one App to view your membership details, statements, claims, and medical scheme expenses. Alternatively, call **0861 222 777** for assistance.

How do I Submit a Claim?

Submit your claim through the Universal.one App or email it to **claims@universal.co.za** within four months of treatment. For benefit enquiries, email **compcare@universal.co.za**.

Where do I Find a Doctor or Healthcare Provider?

Use the Universal.one App to find a healthcare provider near you. If you are on a network option, select **Network Provider** when searching.

How do I Get Hospital Authorisation?

Request pre-authorisation through the Universal.one App, email **preauthorisation@universal.co.za**, or call **0861 222 777**. For planned admissions or procedures, apply at least 48 hours in advance to avoid a late notification co-payment.

Where do I Get my Certificates?

Download your membership certificate, tax certificate and statements from the Universal.one App, or call **0861 222 777** for help.

What Should I do if my Claim is Rejected?

Check the rejection reason on the Universal.one App or call **0861 222 777**. A consultant will explain what happened and what information may still be needed.

How do I Register on the UniversalOne App?

Download the Universal.one App from the Apple App Store or Google Play Store. Register with your membership number and personal details to access your digital card, claims, benefits and more.

Terms Explained

Abbreviations

A	Adult Dependant	HIV	Human Immunodeficiency Virus	PMB	Prescribed Minimum Benefits
AFB	Annual Flexi Benefit	HPV	Human Papilloma Virus	PF	Per Family
BMI	Body Mass Index	M	Member	PMSA	Personal Medical Savings Account
C	Child Dependant	MRI	Magnetic Resonance Imaging	PSA	Prostate-Specific Antigen blood test
CDL	Chronic Disease List	OAL	Overall Annual Limit	RP	Reference Pricing or Medicine Reference Price
CPAP	Continuous Positive Airway Pressure appliance	OTC	Over-the-Counter Medicine	SAOA	South African Optometry Association
CT scan	Computerised Tomography scan	P	Principal Member	TTO	To-Take-Out (medicine taken on discharge from hospital)
DSP	Designated Service Provider	PB	Per Beneficiary		
GP	General Practitioner	PET scan	Positron Emission Tomography scan		
		PM	Per Member		

Adult dependant (A): a dependant who is 21 years and older.

Annual Flexi Benefit (AFB): an insured benefit which is a fixed amount provided by CompCare to cover Day-to-Day medical expenses. These benefits are subject to specific limits, co-payments, or specified conditions based on the member's chosen benefit option. For the SelfCare and SaverCare options with a Personal Medical Savings Account (PMSA), claims are first paid from the PMSA and then from the AFB. For traditional plans without a PMSA, day-to-day claims are paid directly from the AFB.

Chronic Disease List (CDL): the Chronic Disease List determined by the Medical Schemes Act which is covered in terms of Prescribed Minimum Benefits.

Child dependant (C): a child until the age of 21 years, including biological and legally adopted children as well as stepchildren.

CompCare Rate: the tariff paid by the Scheme for different medical services and can include the contracted tariff for services agreed with certain groups of service providers such as hospitals.

Contraceptives: injectable, implantable, intra-uterine, trans- and subdermal, as well as oral contraceptives.

Co-payments: the difference between the cover provided by the Scheme and the cost/tariff charged for the medical service for which the member is liable.

Cost: the cost of Prescribed Minimum Benefit (PMB) services, payable by the Scheme, subject to the registration of the conditions with the Administrator as qualifying for PMBs and rendered by designated service providers (DSPs) according to accepted PMB treatment protocols.

Continuous Positive Airway Pressure appliance (CPAP): a device that provides continuous positive airway pressure to help prevent breathing interruptions during sleep.

Designated Service Provider (DSP): a service provider contracted or appointed by the Scheme to provide certain medical services.

Emergency medical condition: any sudden and unexpected onset of a health condition that requires immediate medical or surgical treatment, where failure to provide such treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person's life in serious jeopardy. Emergencies that qualify as PMBs must also be registered as a PMB with supporting evidence.

Personal Medical Savings Account (PMSA): for the SelfCare and SaverCare options, a portion of the member's contribution is allocated to a savings account from which day-to-day medical expenses may be covered. The full savings amount is made available at the beginning of the financial year, it accumulates if not depleted and is carried over to the next year. A PMSA cannot be used to pay for PMB services.

Hospital benefits: benefits for services rendered in hospital during a patient's stay. Services include ward accommodation and ward medicine, radiology, pathology, and consultations during hospitalisation. Certain procedures performed in hospital, for example, scopes and specialised radiology, require the member to make an upfront payment, which differs per option. All planned hospital admissions must be pre-authorised to avoid a co-payment. Emergency admissions must be registered on the first workday following the admission (see "Emergency medical condition"). Members who are required to use Medclinic or Netcare hospitals but choose to voluntarily be admitted to another hospital will incur a co-payment for the hospital and all related accounts.

Prescribed Minimum Benefits (PMBs): a set of defined benefits as per the Medical Schemes Act to ensure that all medical scheme members have access to certain minimum health services. PMBs apply to 27 chronic conditions on the Chronic Disease List (CDL) and 272 diagnoses with their treatments as published in the Regulations under the Act. In terms of these Regulations, medical schemes must grant benefits for the diagnosis, treatment, and care costs of any of these conditions as well as emergency medical conditions (that meet the published definitions) without imposing any limits. PMBs are subject to pre-authorisation, protocols, and the use of designated service providers, where applicable. Benefits for PMB services are first funded from the related day-to-day benefits.

Protocol: a set of clinical guidelines in relation to the optimal sequence of diagnostic testing and treatments for specific conditions and includes, but is not limited to, clinical practice guidelines, standard treatment guidelines, disease management guidelines, treatment algorithms, clinical pathways, and evidence-based medicine.

Reference Price (RP): applies to all pre-authorised PMB medicine. The price is determined according to the most cost-effective treatment based on evidence-based principles. Members are advised to consult their doctor when using PMB medicine to make sure they use medicine on the formulary and within the reference price where possible and avoid or minimise co-payments.

Over-the-Counter medicine (OTC): medicine that is not prescribed and is available to buy over the counter at pharmacies. Claims for self-medication must have valid NAPPI codes to be processed.

To-Take-Out medicine (TTO): medicine that is dispensed and charged by the hospital for the patient to take home when discharged.

Vascular/cardiac prosthesis: includes artificial aortic valves, pacemakers, and related or connected functional prostheses.

Virtual consultations: the online consultations made possible by uConsult™ and accessible via the Universal.one App or by visiting u-consult.co.za.

Member Guide

1. Rules of the Scheme

The Scheme is governed by a set of rules submitted to and approved by the Council for Medical Schemes. All terms and conditions are set out in detail in the rules of the Scheme, which can be viewed at the office of the administrator. The rules of the Scheme always apply during a dispute resolution.

2. Membership

Who is eligible for membership?

Membership is open to any individual or company/group, except where the member ceases to be a permanent resident of the Republic of South Africa. The Scheme provides cover for all international students while studying in the Republic of South Africa.

2.1 Who can be registered as dependants?

- A member's spouse or partner – a person with whom the member is legally married, or has a two-year or longer committed relationship akin to marriage, based on objective criteria of mutual dependency and a shared common household, married in terms of any law or traditional/customary marriage (marriage certificate/affidavit/suitable other certificate required).
- Surviving spouse members – continuation of a surviving spouse of the main member is allowed to continue on the medical aid, provided that they were registered as dependants at the time of the main member's death (marriage and death certificate required).
- A child until the age of the age of 21 – who is not in receipt of a regular remuneration of more than the maximum social pension per month, or a child of any age due to being mentally or physically challenged is a dependent of the member, or legally adopted child/children placed in your care and custody by virtue of a court order (legal proof required).
- Full-time student – Proof of registration of the current year is required from a secondary or recognised tertiary institution and each year thereafter, in order for the dependant to qualify at child rates to a maximum of up to 21 years.
- Part-time students – an affidavit is required, stating that the child is unemployed and financially dependent on the principal member. Proof of registration as a student is required from the recognised institution. The dependant will be billed at adult rates.
- Unemployed child – (up to a maximum age of 21) who is unemployed and financially dependent on the principal member (affidavit required).
- Disabled/mentally challenged – a full medical report required upon application in order to qualify at child dependant rates.

2.2 How are waiting periods applied?

Prospective members are required to disclose all details in full of any sickness or medical condition for which medical advice, diagnosis, care or treatment was recommended and/or received prior to the twelve-month period ending on the date on which application is made.

Waiting periods are applied when members join the Scheme or are registered as dependants according to the following instances:

- If you have never been a member/dependant or not covered on a medical scheme for a period of more than 90 days immediately before applying to the Scheme, the Scheme may impose a general waiting period of three months and twelve months condition-specific waiting period on any/all pre-existing medical conditions. This will also be applicable to Prescribed Minimum Benefits.
- If you have been on a medical scheme for a period of less than 24 months and you apply for membership within the three months of termination from the previous medical scheme, a condition-specific waiting period of twelve months will apply. If the beneficiary suffers from any pre-existing condition, the Scheme may impose any unexpired balances imposed by

the previous scheme. The beneficiary will be entitled to the Prescribed Minimum Benefits.

- If you have been on a medical scheme for a period of more than 24 months and apply for membership within the three-month period from termination from the previous medical scheme, the general waiting period of three months will apply. You will be entitled to the Prescribed Minimum Benefits.

When does the benefit year start?

The Scheme's benefit year begins on 1 January and ends on 31 December of that year. This means that if you join the Scheme on 1 January, you are entitled to the full allocation of the year's benefits and limits. However, if you join the Scheme during the course of the benefit year, you will be entitled to pro-rated benefits and limits, meaning that you will only be entitled to a time-appropriate proportion of the annual benefits and limits.

Please note: You have the opportunity to review and change your choice of benefit option once during the benefit year with effect from 1 January of the next year. Once you have selected a benefit option for the benefit year, you cannot change your benefit option during that benefit year.

2.3 Proof of membership

Every member shall be provided with a membership card. You will be required to exhibit this membership card when visiting a healthcare service provider and/or admission to a hospital. You therefore need to ensure that your card is kept secure at all times in order to prove your membership of the Scheme. Your membership card can also be downloaded on the Universal.one App.

2.4 How do I go about changing my details?

Complete a Member Update Information form, available from our website (compcare.co.za) or our offices at **0861 222 777**. A member must notify the Scheme within 30 days of any change of address, including the address at which legal proceedings may be instituted (domicilium citandi et executandi.)

The Scheme shall not be held liable if a member's rights are prejudiced or forfeited as a result of the member neglecting to comply with the requirements of this rule.

2.5 Late joiner penalties

Late joiner penalties are applicable to an applicant or adult dependant of an applicant who, at the date of application for membership or admission as a dependant, is older than the age of 35 years, depending on the number of years that they have not belonged to a registered South African medical scheme. This excludes beneficiaries who enjoyed coverage with one or more medical schemes as from the date preceeding 1 April 2001, without a break in coverage exceeding three consecutive months since 1 April 2001. Penalties shall be applied only to that portion of the contribution relative to the late joiner and shall not exceed the following bands:

Penalty bands	Maximum penalty
1 - 4 years	0.05 x contribution
5 - 14 years	0.25 x contribution
15 - 24 years	0.50 x contribution
25 + years	0.75 x contribution

The penalty is calculated as per the following formula:

$$A = B \text{ minus } (35 + C)$$

Where in terms of the Medical Schemes Act No 131 of 1998:

A = number of years referred to in the first column of the table in subregulation (2), for purposes of determining the appropriate penalty band;

B = age of the late joiner at the time of his or her application for membership or admission as a dependant;

C = the number of years of creditable coverage, which can be demonstrated by the late joiner.

2.6 Complaints and disputes:

Members may lodge their complaints telephonically, or in writing, to Universal Healthcare Administrators on **0861 222 777** or e-mail address **escalations@universal.co.za**.

The Escalations team will assist the member immediately where possible. All unresolved telephonic complaints, or complaints received in writing, will be responded to by the Universal Healthcare Escalations team, in writing, within 30 days of receipt thereof and copy the Fund Manager on the response. Should the member not be satisfied with the outcome of the query, then this query or dispute can be escalated to the Fund Manager.

E-mail escalations can be sent to **compcare@universal.co.za** or the call centre agent can transfer the member to the appropriate senior official. All escalations will have to be accompanied by supporting evidence. Any dispute, which may arise between a member, prospective member, former member or a person claiming by virtue of such membership and the Scheme or an officer of the Scheme, may be referred by the Principal Officer to a disputes committee (appointed as and when needed, by the Board of Trustees) for adjudication. On receipt of a request in terms of this rule, the Principal Officer must convene a meeting with the disputes committee by giving not less than 21 days' notice in writing to the complainant and all the members of the disputes committee, stating the date, time and venue of the meeting and particulars of the dispute. The disputes committee must determine the procedure to be followed. The parties to any dispute have the right to be heard at the proceedings, either in person or through a representative.

An aggrieved person has the right to appeal to the Council for Medical Schemes against the decision of the disputes committee. Such appeal must be in the form of an affidavit and directed to the Council for Medical Schemes not later than three months after the date on which the decision concerned was made. The contact details of the Council for Medical Schemes: **0861 123 267** and e-mail: **complaints@medicalschemes.com**.

3. Contributions Payable

The total monthly contributions payable to the Scheme by or in respect of a member are as stipulated in the contribution tables in the Scheme rules. It shall be the responsibility of the member to notify the Scheme of changes in income that may necessitate a change in contribution for income-based benefit option members. Contributions shall be due monthly in arrears or advance, as stipulated in the rules and payable by not later than the third day of each month. Where contributions or any other debt owing to the Scheme have not been paid within three days of the due date, the Scheme shall have the right to suspend all benefit payments in respect of claims which arose during the period of default. In the event that payments are brought up to date, and provided membership has

not been cancelled, benefits shall be reinstated without any break in continuity, subject to the right of the Scheme to levy a reasonable fee to cover any expenses associated with the default, and to recover interest on the arrear amount at the prime overdraft rate of the Scheme's bankers. If such payments are not brought up to date, no benefits shall be due to the member from the date of default, and any such benefit paid will be recovered by the Scheme.

3.1 Savings

Your total annual savings is advanced and will be available to you at the beginning of the benefit year (Jan to Dec) for the full calendar year (Jan to Dec). Termination of membership during the benefit year will result in savings being pro-rated. This pro-ration could result in savings being owed to the Scheme. Should you terminate your membership with the Scheme, the savings balance will be payable to the member or transferable to the new medical aid of the member in the 5th month following resignation from the Scheme.

3.2 Termination of membership

3.2.1 Resignation

A member who, in terms of his/her conditions of employment, is required to be a member of the Scheme may not terminate his/her membership while he/she remains an employee without the prior written consent of his/her employer. A member of the Scheme who resigns from the service of his/her employer shall, on the date of such termination, be eligible to continue as an individual member without re-applying or the imposition of any new restrictions that did not exist at the time of his/her resignation from the employer.

3.2.2 Voluntary termination of membership

A member, who is not required in terms of his/her conditions of employment to be a member, may terminate his/her membership of the Scheme by giving one month's written notice. All rights to benefits cease after the last day of membership.

3.2.3 Deceased members

The dependants of a deceased member, who are registered with the Scheme as his/her dependants at the time of such member's death, shall be entitled to continued membership of the Scheme without any new restrictions, limitations or waiting periods. Where a child dependant/s has been orphaned, the eldest child may be deemed to be the member, and any younger siblings as the child dependant/s.

4. Members' Portions

Members' portions arise when healthcare service providers are refunded in full by the Scheme, but the member still has to cover the cost of a co-payment applicable to the particular benefit or where levies are imposed. Members can refund the Scheme by EFT, payroll deduction (if part of an employer group) or make use of the convenience of a debit order.

5. Benefits

5.1 Choosing a benefit option

Members are entitled to benefits during a financial year, as per the rules of the Scheme, and such benefits extend through the member to his/her registered dependants. A member must, on admission, elect to participate in any one of the available benefit options detailed in the rules of the Scheme.

If you are a member of an employer group, your choice may be limited to the options agreed on between you and your employer. If you join as an individual, you may choose any of the various benefit options according to your needs and affordability.

5.2 Option changes

A member is entitled to change from one to another benefit option subject to the following conditions. The change may be made only with effect from 1 January of any calendar year.

Application to change from one benefit option to another must be in writing and lodged with the Scheme within the period notified by the Scheme.

5.3 Pro-rated benefits

If members join the Scheme later than 1 January during a specific year, pro rata annual benefits will apply until the end of the year. From 1 January of the following year, members will qualify for the full annual benefit.

6. How Do I Submit a Claim?

Members are not required to complete a claim form. Simply sign all accounts and invoices and submit them directly to the Scheme.

6.1 Electronic claims

Most service providers have the facility to submit claims electronically. These claims are then paid directly to the service provider, subject to the available benefits, ensuring a very short processing turn-around time. However, it is the member's responsibility to ensure that the claim/s reaches the medical aid within the four-month time period from the date of treatment and to check claims statements for accuracy and validity of the claims submitted by the service providers.

6.2 Email/scan

To ensure that claims are promptly processed, please ensure that your name, membership number and contact number/s are on the claims and must be legible. Claims must be submitted within the four-month period from the date of treatment.

Post: Universal Healthcare Administrators (Pty) Ltd, Private Bag X49, Rivonia, 2128

6.3 Via the Universal.one App

Submit a claim and track your expenses via the Universal.one App for CompCare Medical Scheme members.

6.4 How does the claim process work?

Claims are settled every two weeks for payment to the service providers or members. Members will receive a monthly detailed statement of claims transactions and of all payments made to the member and/or service providers. Kindly ensure that the Scheme has your correct banking details to allow for electronic payment. It is ultimately the member's responsibility to ensure that claims are submitted timeously for payment.

Specialist referral process

A referral from a GP is required before seeking treatment from a specialist, failing which will attract a 35% co-payment on the visit as well as related services.

Members are required to notify the Scheme of a specialist visit prior to the visit by requesting a "Spec Auth". This can be done by contacting the call centre at **0861 222 777** or by sending an email to specauth@universal.co.za.

The following information is required:

- The referral letter from the member's GP on the practice letterhead.
- The medical aid number.
- The name of the dependant.
- The member's correct contact numbers.
- The intended date of the specialist consultation.
- The specialist's name, practice number and contact details.

Should a specialist refer the member to another specialist, the referral letter from the initial specialist referring to the other specialist needs to be provided (the visit to the first specialist should have been authorised). The member need not return to their GP for another referral letter in this instance.

A GP referral is not required in the following cases:

- One gynaecologist visit per female over the age of 16, per year.
- One urologist visit per male over the age of 40, per year.
- Paediatrician consultations for children under the age of 2.
- Specialist visits during pregnancy.
- Oncologist consultations, as this will be approved as part of an Oncology Management Programme.
- Optical and dental specialist consultations (ophthalmologists and orthodontists).
- Where multiple specialist visits have been authorised.

6.5 Over-the-Counter-Medicines (OTC)

This medicine is dispensed by a registered pharmacist, who may prescribe medication for minor ailments that do not require a general practitioner consultation and will not incur a consultation fee that your GP will normally charge. Please consult your benefit guide for the OTC rules and limits applicable to your option. This benefit will include any homeopathic medication.

Complaints Escalated to the Council for Medical Schemes

Tel: 0861 123 267

Email: complaints@medicalschemes.com

Web: medicalschemes.com

This brochure is a summary of the benefits of CompCare Medical Scheme. All information relating to the 2027 CompCare Medical Scheme benefits and contributions is subject to formal approval by the Council for Medical Schemes. On joining the Scheme, all members will receive a detailed member brochure, as approved. The final registered Rules of the Scheme will apply.

All limits are pro-rated when a member or a beneficiary joins the Scheme during the year, calculated from the date of registration to the end of that financial year. If you leave the Scheme before the year is up and have used all the funds in your savings account, you will owe the Scheme the advanced portion of the Medical Savings Account you have used, as it is a pro-rated benefit allocated in advance for the full benefit year. This summary is for information purposes only and does not supersede the Rules of the Scheme. In the event of a discrepancy between the summary and the Rules, the Rules will prevail.
